This consent can be revoked at any time effective immediately.</p> <p><b>4) Direct advertising</b> (including profiling): Overriding legitimate interests (see point 7.)</p>
7.	<p><b>Description of (overriding) legitimate interests for purposes</b></p> <p><b>- of direct advertising</b></p> <p><b>- data processing within the Group</b></p> <p><b>- of IT security</b></p>	<p>Mythos Mozart also processes customer data (but not that of children or special categories of personal data within the meaning of Art 9 GDPR2 ("sensitive data")) in order to use them for direct advertising purposes for (other) products from Mythos Mozart (see also point 4.). Mythos Mozart has a legitimate interest in the processing of personal data for direct marketing purposes (Recital 47, last sentence of the GDPR). Only the customer data that Mythos Mozart has from the contractual relationship and for which the storage period is still running is processed. This does not result in an extension of the storage period. The primary goal of data processing is customer acquisition and customer loyalty with the aim of returning to a (pre-)contractual relationship</p> <p>For this Mythos Mozart relies on its conventionally and constitutionally guaranteed right to acquire (Art. 6 StGG) and freedom of communication (esp. Art 10 EMRK, which also protects advertising measures) and on the rights</p> <ul style="list-style-type: none"> <li>· to send out postal advertising;;</li> <li>· to make marketing calls after consent;</li> <li>· to send electronic mail after consent;</li> <li>· to send electronic mail according to Art. 107 para 3 TKG;</li> </ul> <p><b>When using this data, Mythos Mozart complies with the communication law requirements, in particular Art. 107 TKG.</b></p> <p>Mythos Mozart is part of a group of companies (see point 13.). In order to fulfill its extensive obligations, Mythos Mozart also makes use of the group-affiliated companies in a division of labor. Mythos Mozart has an overriding legitimate interest in this (Recital 48 of the GDPR). Within the group of companies, personal data is only received by entities that require this data to fulfill contractual and legal obligations and to safeguard legitimate interests. These entities are contractually obliged to comply with all data protection regulations.</p> <p>The body responsible stores the IP addresses of the users for a period of 7 days in order to be able to ward off targeted attacks in the form of server overload ("denial of service" attacks) and other damage to the systems. The body responsible has an overriding legitimate interest in this data processing for the purpose of maintaining the functionality of the services provided online (Recital 49 of the GDPR).</p>

		<p>The website of the body responsible uses SSL or TLS encryption to ensure the security of data processing and to protect the transmission of confidential content, such as orders, login data or contact requests that you send to us. You can recognise an encrypted connection by the fact that the address line of the browser shows "https://" instead of <b>Fehler! Linkreferenz ungültig.</b> and by the lock symbol in your browser line. Collected data and information are evaluated statistically and also with the aim of increasing data protection and data security in our company in order to ultimately ensure an optimal level of protection for the personal data we process. The data of the server log files are stored separately from all personal data provided by an affected person.</p> <p>Encrypted payment transactions If, after the conclusion of a fee-based contract, there is an obligation to send us your payment data (e.g. account number for direct debit authorisation), this data is required for payment processing. Payment transactions using the usual means of payment (Visa/MasterCard, direct debit) are carried out exclusively via an encrypted SSL or TLS connection. You can recognise an encrypted connection by the fact that the address line of the browser switches from "http://" to "https://" and by the lock symbol in your browser line.</p>
<b>8.</b>	<b>Evaluation of personal aspects of the customer ("profiling")</b>	For the purpose of avoiding wastage (and minimising data processing) in direct marketing, Mythos Mozart stores the purchasing behaviour collected during customer contact (e.g. online ticket purchase), such as sales, product groups, reactions to certain offers, and infers certain personal interests from this and preferences. Mythos Mozart uses these evaluated interests to provide customers with targeted, interest-specific offers and advertising.
<b>9.</b>	<b>Objection to profiling</b>	The customer can object to the use of his personal data for profiling purposes at any time and without giving reasons to the body responsible. The objection means that Mythos Mozart can no longer process the customer's personal data for profiling purposes in the future.
<b>10.</b>	<b>Purpose changes</b>	The body responsible will not change the purpose for which the personal data is processed.
<b>11.</b>	<b>Data preparation</b>	There is no legal or contractual obligation to provide your personal data. The only consequence of non-provision is that we cannot process your request or (in the case of a ticket purchase) provide you with information or inform you about changes to the event in question or send you further information after your visit.
<b>12.</b>	<p><b>Types of processed data</b></p> <p><b>- provided by the customer</b></p> <p><b>- additionally collected by the body responsible</b></p>	<ul style="list-style-type: none"> <li>- Name (first name and surname)</li> <li>- Username</li> <li>- Email address</li> <li>- Password data</li> <li>- Contact Information</li> <li>- Shipping/billing address</li> <li>- Separate shipping address</li> <li>- Payment information</li> <li>- Historicized photo taken by the customer himself at the beginning of the showrooms (see point 18)</li> <li>- IP addresses (log files)</li> <li>- Data about the terminal</li> <li>- Browser used</li> <li>- Communication protocol</li> <li>- Information on account usage (creation date, number of logins, date of last query)</li> <li>- Time stamps</li> <li>- Session IDs</li> <li>- Login data (email, encrypted password)</li> <li>- Login checks</li> <li>- Interface information characteristics</li> </ul>

15.	<b>External data recipients of electronic identification data to those responsible via so-called „SOCIAL PLUG INS“</b>	<p><b>Consent. If consent is required for the transmission of the following data to those responsible, the body responsible will obtain express consent from the customer. This consent can be revoked at any time effective immediately.</b></p> <p>You should be aware that if you activate the "social plug-ins" mentioned below, your data may also be processed outside the European Union or the European Economic Area.</p> <p>Their use can therefore have data protection risks for you, since the protection of your rights, e.g. to information, deletion, objection, etc. can be more difficult and their processing in social networks is often carried out directly for advertising purposes or for the analysis of user behaviour by the providers without us being able to do anything about it. If usage profiles are created by the provider, cookies are often used, or the usage behaviour is assigned directly to your own member profile of the social networks (if you are logged in here).</p> <p>Since we have no access to the data files of the providers, we would like to point out that it is best to assert your rights (e.g. to information, correction, deletion, etc.) directly with the respective provider.</p> <p>We have listed further information on the processing of your data in the social networks and the possibility of making use of your right of objection or revocation (so-called opt-out) below for the respective providers of social networks used by us.</p> <p>We use the "Sassy Social Share" button on our website. "Sassy Social Share" replaces the native share buttons of the social networks and thereby protects your anonymity.</p> <p>"Sassy Social Share" only integrates share buttons of the social networks on our website as a graphic that contains a link to the corresponding social network. By clicking on the corresponding graphic, you will be forwarded to the service of the respective network. The respective button only establishes direct contact between</p>

	<p>the social network and you when you actively click on the share button. Only then will your data be transmitted to the respective social network. If the button is not clicked, however, no data exchange takes place between you and the social networks.</p>

This integration ensures that no connection to the Facebook servers is established when a page containing such plugins is called up. Your browser only establishes a direct connection to the Facebook servers when you activate the plugins and thus give your consent to data transmission. The content of the respective plugin is transmitted directly to your browser and integrated into the page. The plugin then transmits data (including your IP address) to Facebook. We have no influence on the amount of data that Facebook collects using the plugins. As far as we know, Facebook receives information about which of our websites you are currently accessing and have previously accessed. By integrating the plugins, Facebook receives the information that your browser has accessed the corresponding page of our website even if you do not have a Facebook profile or are not currently logged in. This information (including your IP address) is transmitted directly from your browser to a Facebook server in the USA and stored there. If you interact with the plugins, for example by clicking the "Like" button, the corresponding information is also transmitted directly to a Facebook server and stored there. The information is also published on Facebook and displayed to your contacts there.</p> <p>The purpose and scope of the data collection and the further processing and use of the data by Facebook as well as your rights in this regard and setting options for protecting your privacy can be found in Facebook's data protection information at <a href="http://www.facebook.com/policy.php">http://www.facebook.com/policy.php</a></p> <p>If you are a member of the Facebook social network and would like to limit the collection of data via our websites and the combining of your user data with the data stored about you on the Facebook social network, you should log out of Facebook before visiting our website. You can also completely prevent the Facebook plugins from loading in the future with add-ons for your browser, e.g. with the script blocker "NoScript".
